

Yash Bhosale

Address- 3rd Floor-306, Suraj Apartment Namdeowadi, Panchpakhadi, Thane (W) - 400602

Contact no: : +91 7718940201 || Email Address : yashbhosale555@gmail.com

Career Objective:

Passionate Java Developer with expertise in Spring Boot, Microservices, and ORM technologies. A quick learner with strong problem-solving skills and a focus on delivering high-quality, efficient code. Eager to contribute to a dynamic team while continuously improving development processes and adopting the latest industry trends.

Professional Experience :

Capgemini Technology Services

2022 - Present

Software Engineer

Started my career in a Capgemini, where I gained extensive experience across a range of technologies and processes.

Initial Training & Skills Development:

- Trained in Cloud, Linux, SQL Administration, and Systems Administration.
- Gained hands-on experience in infrastructure management and automation.

Automation Project (Bots Development):

- Developed and deployed end-to-end automation bots for IT infrastructure management, focusing on system monitoring, housekeeping, and log management.
- Key tasks and bots created:
 1. Automated disk space utilization checks for servers, housekeeping tasks, disconnected user management, and log generation.
 2. Developed a bot for partial DNS creation, update, and deletion.
 3. Built a bot to delete Oracle database listeners and logs after a specified period.
 4. Created a bot to compare server states from Excel sheets and generate updated server detail reports.

GCC SRM Team (Access Delegation & Admin Tasks):

- Focused on access delegation, user management, and admin tasks within the organization.
- Managed internal systems, focusing on delegating access rights and ensuring security compliance.

Java/Spring Boot & Microservices Focus:

- Over time, my passion for Java and software development led me to focus on Spring Boot, Microservices, and ORM technologies.
- Gained practical experience in developing microservices-based applications, optimizing system architecture, and leveraging ORM frameworks for database management.
- Worked on enhancing my skills in Java development, focusing on efficient, scalable, and maintainable code.

Trainings

1. Java Full Stack Developer

August 2022

QspidersJspiders

- I received comprehensive training in **Core Java**, focusing on OOP principles, data structures, alongside practical experience in building Java applications.
- I also gained proficiency in **SQL** for database querying and optimization, and learned **Web Technologies** including HTML, CSS, and JavaScript for developing interactive web applications.
- Additionally, I trained in **Automation Testing** using **Selenium**, gaining hands-on experience in test scripting and automation frameworks. To apply my knowledge, I developed several standalone applications such as a **Note Taker** app and a **Blog app**, integrating Java, web technologies, and databases to enhance my skills.

2. Java Full Stack Developer

Scalar Academy

October 2024

- I received in-depth training in **Data Structures and Algorithms (DSA)**, covering concepts like arrays, linked lists, and hashmaps, alongside hands-on experience in **Spring Framework** (Spring, Spring Boot, Spring MVC, Spring ORM, Spring Security, OAuth 2.0, JWT).
- I also gained expertise in **JDBC, ORM, Hibernate, JPA, Servlets, Redis, Kafka**, and **Microservices along with REST Api**.
- To apply this knowledge, I developed practical projects including a **Smart Contact Manager**, an **E-commerce website**, and various smaller projects, which helped me solidify my understanding of both backend development and integration of various technologies.

Educational Details :

Bachelor of Engineering (B.E) 2019 - 2022
University of Mumbai
First class with distinction
CGPA 8 / 10

Diploma in Electrical Engineering 2016 - 2019
K.J. Somaiya Polytechnic
First class with distinction **90.90 %**

Secondary School Certificate (SSC) 2015 - 2016
BSMS English Medium School
First class with distinction **89.60%**

Projects :

NoteTaker StandAlone Application

□**Tech Stack:** JSP, Servlets, HTML, CSS, JavaScript, Hibernate, JPQL

Developed a NoteTaker app for managing notes using JSP and Servlets for backend logic, and Hibernate for database management.

Smart Contact Manager

Tech Stack: HTML, CSS, JavaScript, Spring Boot, Spring Security, OAuth2, JWT

Created a contact management system with secure authentication (OAuth2, JWT), email notifications, and backend logic using Spring Boot.

BlogApp

Tech Stack: JSP, Servlets, HTML, CSS, JavaScript, Hibernate, REST API

Built a Blog app for managing blog posts, using JSP/Servlets for server-side logic and Hibernate for database

Ecommerce website

Tech Stack: Kafka, Redis, Java, Spring Boot, Microservices

Developed an e-commerce platform with payment integration, real-time data streaming via Kafka, and caching using Redis, built with a microservices architecture.

Technical Skills :

- **Programming Languages:** Core Java, Java 8, SQL, JavaScript, HTML, CSS
- **Object-Oriented Programming (OOP):** Strong understanding of OOP principles (Inheritance, Polymorphism, Abstraction, Encapsulation)
- **Frameworks & Libraries:** Spring, Spring Boot, Spring MVC, Spring ORM, Hibernate, JPA
- **Web Development:** REST APIs, Servlets, HTML, CSS, JavaScript
- **Microservices:** Microservices Architecture, RESTful Web Services, API Design
- **Security:** Spring Security, OAuth 2.0, JWT
- **Messaging & Streaming:** Kafka, Redis
- **Data Structures & Algorithms:** Strong knowledge of data structures (arrays, linked lists, hashmaps) and algorithms
- **Efficient Use of AI Tools:** Proficient in leveraging AI tools for improved development and automation
- **Database Management:** JDBC, ORM, JPA

Soft Skills :

- Excellent verbal and written communication skills.
- Strong ability to collaborate with multidisciplinary teams.
- Strong analytical and problem-solving skills to identify issues, evaluate options, and implement effective solutions.
- Effective negotiation skills
- Excellent time management and organizational skills to prioritize tasks, manage multiple deadlines, and ensure project milestones are achieved timely.
- Ability to adapt to changing project requirements, unforeseen circumstances, shifting priorities and sound decision-making abilities, considering project objectives, risks
- Strong attention to detail to ensure accuracy in project documentation, adherence to specifications

Languages Known :

English : Professional Working Proficiency

Hindi : Professional Working Proficiency

Marathi: Professional Working Proficiency

Declaration :

I declare that the information provided in this resume is accurate and complete to the best of my knowledge. I understand that any false statements may result in disqualification from consideration for employment.
